

Anthony Dinino

SOFTWARE ENGINEER

Profile

Experienced software engineer with 2+ years of experience and a proven track record of making significant contributions to challenging and complex large-scale systems.

Employment History

Software Engineer, Aligent, Adelaide

JANUARY 2022 – JUNE 2023

- Built and maintained, high-complexity, large-scale and performant web applications in PHP, building upon the Adobe Commerce platform.
- Successfully added US store for a large client, collaborating with US team and re-implementing search indexing solution using SearchKit.
- Developed highly-customized REST API and GraphQL endpoints ensuring decoupled and headless architecture.
- Comfortable with agile methodology using Jira and Confluence.

IT Project Coordinator, 2Excel, Adelaide

MARCH 2020 – OCTOBER 2021

- Successfully delivered large scale, real-world, multi-user systems tested by in-house developers using PHP and React-native for mobile apps.
- Attended client meetings regularly ensuring project scope remains consistent and on track during the project life cycle.
- Taught co-workers how to use UXPin software minimizing hundreds of hours spent on self-training.
